

DESKTOP RALLY

“OLD MAITLAND ROAD”

AUGUST 2009

Author: Pam Watson

Map required: NRMA ‘SYDNEY SURROUNDS’ Map 4
On the back cover P2504 06/07

Official Maps - Newcastle and Suburbs
Central Coast

*Do not oppose rally traffic within each Division.

*Unmapped sections of roads where overlaid by a word, such as WYONG, are deemed to exist.

*The route to be taken is the shortest route point to point between successive Via points, taking into account any intermediate instructions between the Via points.

These intermediate instructions may be in any order, and may be concurrent.

Eg Via A

Cross a creek
Cross a bridge

Via B

The route to be followed is the shortest distance between A and B which crosses a creek and a bridge, as mapped. The creek and bridge may well be the same point on the map, or the bridge could be a point before the creek or a point after the creek.

It DOES NOT MEAN the shortest distance from A to a creek; then from a creek to a bridge; then from a bridge to B.

* When a road is specified as a ‘Via’, it is only necessary to use at least one section of the road, unless specific instructions, such as ‘Via a road in its entirety’, are given.

Abbreviations

GS = Grid Square
RJ = Road junction
XR = Cross Roads
