

# 2016 Wollondilly 270

## Final Results

### Masters Winners - John Cooper and Ross Warner

### Apprentices Winners - Steve and Heather Brumby

### Tour Winners - John and Lisa Needs

## **The 2016 Wollondilly 270**

**Final Results issued Thursday 3rd March 2016**

Thank you all for supporting the Classic Rally Club by competing in the 2016 Wollondilly 270.

In the tradition of the Barry Fergusson Classic we gave the Masters and Apprentices many challenges plotting and navigating on the 1950s 1 Inch to 1 Mile maps. The Tour Crews also had major challenges with some very difficult questions and a hard to see laneway in The Oaks that only 3 cars found. We are glad crews enjoyed the wonderful variety of roads heading through the Wollondilly Shire.

Congratulations to the winners:

Masters: Ross Warner and John Cooper  
Apprentices: Heather and Steve Brumby  
Tour: Lisa and John Needs

Trophies will be presented at the CRC Meeting on Tuesday 22nd March

Many thanks to Tim McGrath who acted as advisor, checker and Sweep.

We also appreciate the help from the other officials: Ron Cooper, Gary and Wendy Maher, Tony Norman, Steve Newby, Sue Reed, Tony and Els Dirickx, Starr and Rob Mifsud. Family members who were roped in were my wife Catherine who drove me ahead of the field doing the Set Up, my son David who manned the Central Control and my sister Roz who took those high quality photos as the cars headed to the finish.

We enjoyed running the event and, if you enjoyed it too, then we are happy to run it again next year.

Mike Batten and Peter Reed

### **More Explanations of the Results for Masters and Apprentices**

Some more issues that have arisen are:

#### **1. Section 2**

Between M2 and Via 1 the location of the Castle Road RJ was given as "2.4 km after crossing the GREAT WESTERN HWY at GR 704 261". This was incorrect and should have been GR 708 266. Mike realises the error led to the confusing consequence that when scaling to the next 2 RJs the distances were out by 250 m and 450 m.

#### **2. Section 5**

Via 1 at GR 694 937 in Camden was specified as a TJ. According to the NSW Touring Code Clause 3.5.6 "If road junctions are located such that they are not more than 2mm apart on the map some identification or clarification of the direction intended to be taken must be given". We have been notified there was another possible TJ which was 1mm from the intended TJ. One Apprentice crew who plotted the other TJ will not lose points for the Passage Control, Question 4 and VRC OW. This has swapped the Apprentice Crews in 2nd and 3rd places.

#### **3. Section 8**

VRC DJ was removed by a member of the public between Yanderra and Bargo. It has been removed from the Results but remains on the PDF with the marked up maps

## The 2016 Wollondilly 270

The results have been broken down to show the Major and Passage Controls, VRCs and Z Boards where you lost points. Points in red indicate Incorrect Route.

Note that a PDF file with marked up maps showing the intended route is attached.

### Tour Questions and Answers

Details of the Answers to the Tour Questions were emailed out on 2<sup>nd</sup> March.

In Tour Division 2 there were two especially difficult Questions: 5 Crews were correct with Q1 and only 3 Crews with Q7.

### Explanation of Results for Masters and Apprentices (included in Provisional Results)

Some issues that were not planned were:

#### 1. Questions

Two Masters Crews did not receive a Question page with their Route Instructions in Division 1. Therefore no penalties for Questions have been given to any Masters in Division 1.

#### 2. Section 5

The Clerk of Course intended Crews to find VRC A9 whilst heading E towards Cawdor. This was because the Supp Regs state to Pass "a point where the mapped feature is at right angles to the mapped direction of travel". However we had planned on following the Alpine Classic Regs which state "passed at a point on a road on the route at a right angle to the mapped direction of travel". A lot of Crews were confused on how to "Pass Cawdor". This was not meant to be a trick and therefore VRC A9 has been deleted from the results. The marked up map does not show this change

#### 3. Section 6

The Clerk of Course intended Crews to plot the SMR from Via 2 using a Road Fourth class directly to Mt Hunter and miss The Oaks. The Z3 Board was situated 200 m from the bitumen which directed Crews to travel the SMR through The Oaks. Unfortunately the legend had not been checked carefully. The Windsor map shows a track as a single broken line, however the Camden map shows a "Track vehicular" as two broken lines. Unfortunately in the Legend this is almost identical to a Road Fourth class and therefore Z3 has been deleted as tracks were not to be used. Mike apologises to Crews who wasted time due to this oversight. The marked up map does not show this change

#### 4. Section 8

After leaving Wilton the mapped SMR to Via 2 becomes impassable. A Passage Control issued the following Instructions:

**The following Extra Instructions are to be used as the mapped road is impassable:**

**0.06 km (0.04 mi) TL at RA onto unmapped road**

**0.22 km (0.14 mi) TR at TJ onto unmapped road**

**Then follow the unmapped main road NW for 6.1 km (FCOR to Picton)**

Note that it stated "Extra Instructions are to be used as the mapped road is impassable". They continued by specifying where the unmapped road headed and gave Crews FCOR along the roads leading to Picton. Some crews thought that indicated they should head for the finish in Picton which was at the end of Section 9. Note that this was not indicated in the Instructions and in the opinion of the Clerk of Course Crews were required to continue on the course to Via 2 and then the end of the Section. Mike realises it would have been better if the Instructions finished with "then proceed to Via 2". Please accept our apologies for any confusion.

Thank you to all Crews and Officials for supporting the second CRC Wollondilly Rally so well – 48 Entries is 10 up on 2015!

**Best Wishes**

**Mike Batten and Peter Reed**
